## **About MetaverseFloki**

There is an enormous amount of extreme volatility, FOMO, selling out, and inflation in the current altcoin landscape.

A deflationary asset and stable token with dumping protections and monetary incentives for holding is the goal of METAVERSEFLOKI.

It has features such as an anti dump tax, holder rewards, and burns on every transaction. It is a utility token.

Additional burns and reward systems, such as yield farming/staking, airdrops, and NFT drops, are being considered and will be implemented into the tokenomics of METAVERSEFLOKI.

A number of community features, such as private groups where new projects are announced and incubated, as well as governance, are made available to METAVERSEFLOKI members through membership.

## **Why choose**

METAVERSEFLOKI Network plans on becoming a blockchain enterprise specifically designed for global payments.

METAVERSEFLOKI is a fully decentralized ecosystem with peer-to-peer transactions developed on the Binance Smart Chain (BSC).

Our goal is to yield long-term Return-on-Investments (ROI) for METAVERSEFLOKI holders.

METAVERSEFLOKI is a non-mintable deflationary token, and holders can receive a 3% monthly interest for holding tokens.

METAVERSEFLOKI network has a 5% auto-burn fee on every transaction

In addition to this, METAVERSEFLOKI holders also receive a 5% redistribution fee on every transaction.

Additionally, METAVERSEFLOKI Network re performs smart contract audits to ensure security. We also have a community-driven platform, where the community makes crucial decisions.

METAVERSEFLOKI has also imposed an anti-dump tax of up to 10% to prevent large dumps. An NFT marketplace is also provided by METAVERSEFLOKI, where users can mint NFTs at a low fee. We can also buy or sell third-party NFTs. METAVERSEFLOKI holders will further gain rewards for bidding and pricing NFTs.
